5. 6-axis gyroscope for a better gaming experience (only Switch Mode supported)
6. Provide 19 function input buttons (Adjustable vibration speed in switch mode), support TURBO burst and burst elimination function
7. Built-in powerful vibration dual motor, 256-level precision 3D joystick
8. Compatible with PC(X-input)
9. Support analog joystick, six-axis calibration
10. High grade design, good texture
11. One-button RESET design
12. Low voltage alarm and automatic sleep function
13. Upgradeable software
14. TYPE-C interface with 1.8m magnetic ring USB cable
15. 400mAh rechargeable lithium battery, support long game
16. Exquisite packaging, storage type with Internal bracket

Product Parameters:

1. Colors:

Red: HS-SW516 Blue: HS-SW517

2. Controller parameters:

Controller Size: 152*106*62mm

Controller Weight: 0.245kg (including cable)

Material: ABS

Color: Upper cover (black) + lower cover (black) + decorative piece (blue / red) + button (black) color optional

Button Silk printing: White ABXY

3. Electrical parameters:

Input voltage:	DC 4.5-5.5V
Input current:	400mA
Operating Voltage:	DC 3.7V
Operating current:	20mA-150mA
Battery:	Built-in polymer lithium battery
Battery capacity:	400mAh
Battery Operating time:	8-10 hours (Operating time depends on different time)
Charging time:	2.5 hours
Charging current:	<350mA
stand-by current:	<0.03mA
Low voltage alarm:	$3.55 \pm 0.1V$
Automatic sleep:	$3.45 \pm 0.1V$
Charging interface:	TYPE-C
USB charging cable:	1.8M, With magnetic ring

4. Packaging Parameters:

Single package weight: 0.330kg

Color box size: 180*65*170mm

Packing quantity: 35 sets / box

Packing size: 570*345*370mm

Gross weight: 13.5kg

5. Information: Patent certificate, Packaging documents, Instructions
